

# Leaders in Cow Comfort

## RELAX FIT Free Stall

The RELAX FIT weld-free stall system is held together with heavy duty clamps. The single or double clamp system gives you the flexibility of easy height adjustment so your cows have the RELAX FIT they deserve.

The Up Posts are available in the cemented-in version or the easy to install bolt-on version after concrete has been poured. Give your animals the right height with the RELAX FIT system.

- Heavy-duty 10 gauge (2 3/8") hot dipped galvanized Free Stall Loops.
- Standard sizes 6', 6'6", 7', 7'6".
- 1/4" steel single or double clamps.
- 14 gauge (1.9") hot dipped galvanized Neck Rail.
- 7 gauge (2 7/8") hot dipped galvanized Up Post.
- 60" & 72" height for flexible adjustment.

## MIGHTY MAT

J & D Manufacturing's MIGHTY MAT is a special mix of rubber and EVA which provides the highest quality and most economical cow comfort mat on the market today. With its closed cell design, this mat will not absorb moisture and is 100% waterproof. The special texture improves stability. Its 1 1/4" MIGHTY MAT thickness is an excellent insulation barrier between the animal and concrete. For quick and easy installation, this mat comes interlocking for continuous runs and cuts your bedding costs.

- Each mat covers 48".
- 6 year prorated warranty.

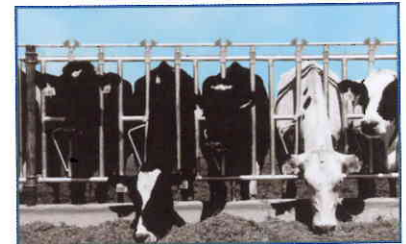

Check out our MIGHTY MAT today!

## CALF CONDO

Shown with Bedding Saver and Tie Bar option  
J & D Calf Condos are easy to install, just set the posts, slide in the PVC panels and add the end caps and gate. The sliding panels make cleaning and group penning easy. Overall dimensions: 42" and 48" widths, 72" and 96" lengths, 46" height.

## SUPERLOCK HEADLOCKS

- Allows you to lock in one or more animals and let the rest out.
- Will allow a down animal to free itself without assistance.
- Built with high quality heavy gauge galvanized tubing.
- Swing arm has counter weight to automatically return it to the open position.
- Permanent 7" or adjustable neck opening.
- Palm control release No Pinched Fingers.
- Optional handle & bracket that enables you to lock out the entire herd.

Finally a gate that will never rust, rot, or corrode!

## FIBERGLASS MAKE-A-GATE

Utilizes high impact fiberglass with a special coating process to offer you years of maintenance-free service, even in the harshest weather and moisture conditions. Backed by our one year warranty.

### Special Coating Process

- Creates a splinter free surface
- Smooth non-porous easy to sanitize
- Uniform bright yellow for easy visibility
- UV inhibitors added

### High Impact Strength Fiberglass

- Resists denting and creasing
- Retains its shape even after heavy flexing
- Long life, will not rust, rot, or corrode
- Uniform dimensions and appearance

### Easy to Assemble

- Pre-drilled holes and standard diameter support dimensions
- Quick and easy assembly
- Easy hinge adjusting after mounting
