

# Alley Cat Scraper Systems

J-Star Alley Cat Scrapers are a reliable and cost effective system for keeping your freestall barn clean. Alley Cat systems will save you time, labor and money, as well as wear and tear on your tractor, skid loader and building.

Our systems install easily into almost any new or existing freestall set-up, including barns up to 1,250' long!

The Alley Cat's automatically controlled timing feature allows you to program cleaning cycles according to your (and your cows) schedule. This dependable, quiet and effective scraper system will result in cleaner, healthier animals, more frequent cleaning of your alleys, and a cost-efficient method of manure removal.

## Alley Cat™ 480 Scraper

- User friendly.
- 1 HP electric motor (single or three phase).
- 60:1 reduction worm-drive gear box handles heavy loads.
- Reversing switch automatically changes blade direction.
- Drum T-bar switch protects drive unit from double wrapped cable.
- Hinged cover for easy service access.

## Scraper Blades

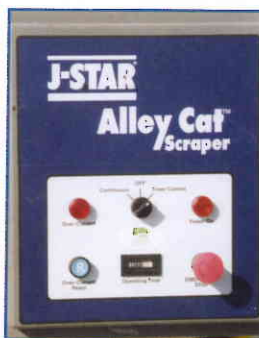

### V-Blades

- Designed for scraping all types of manure and bedding.
- Quick-adjust ratchet type cable tensioners on sleds.
- Available for alleys from 96" to 208" wide.
- Choice of high-density polyethylene or steel wiper blades.
- Fast, easy blade removal from sled.

## Alley Cat Control Panel

The Alley Cat Control Panel manages the entire Alley Cat Scraper system and allows you to customize scraping cycles to your requirements.

- Selector switch allows drive to operate in "Continuous", "Off", or "Timer Control" modes.
- An "Emergency Stop" button halts the system immediately.
- A red "Over Current" indicator light signals when system halts from a current overload condition.
- Weather-protected fiberglass enclosure.

## Electric Agitation Transfer Pumps

- Models to fit even the largest operations and handle the toughest jobs.
- Designed for minimum hassle and maximum results.
- Heavy, rugged construction requires minimum service.

## Heavy-Duty Corner Wheels

- Machined from durable cast iron.
- Easy to grease bearings and seals.
- Triple seal protection from manure.
