Accessory Kit

Universal Parts Kit

"All-Out" Boot

With the Brock Rigid Auger System, you get a rugged Belt-Drive Accessory Kit, Galvanized Steel Tube, "All-Out" Boot Assembly along with the flexibility to set the angle of incline from 5° below horizontal to 65° above with the Universal Parts Kit (UPK).

Concrete Waterers

- **Energy Efficient** - 2" Polystyrene insulation bonded to concrete for higher R value. Painted black for solar heat.
- **Heavy Duty** - 5000 PSI concrete with 3/8" welded rebar cage. Air-entrained concrete designed to allow expansion and contraction without cracking or deterioration.
- **Easy Maintenance** - Acrylic coated inside and out for easy cleaning and protection. Large 3" drains insure total clean out. Top adjustable thermostat and heaters. Large access doors.
- **Large Selection** - Available in 3 sizes from 4 to 250 gallons.

Grain Saver® Utility Auger

Built for long lasting efficiency and durability. Feature adjustable motor mounts, durable powder coated paint and built in safety features. Comes in a variety of lengths and sizes. Available in galvanized steel or stainless steel available upon request. 4" dia. 360 lbs./min, or 6" dia. 450 lbs./min.
