

CBM Electronic Fluorescent Lighting

Save money on your energy bill with CBM Electronic Fluorescent Lighting. The completely waterproof energy saving electronic ballast is standard. The instant start allows even more energy savings. The electronic ballasts are listed as 120/277 Volt self-adjusting in case of power surges. The fixtures are made from quality rust resistant material and the high quality bulbs last 20,000-30,000 hours.

- Lightning Resistant
- 20,000 - 30,000 Hours Of Lamp Life
- Electronic Ballasts are listed as: 120/277 Volt Self Adjusting
- Washable (pressure wash up to 2000 psi)
- 5 Year Warranty On Ballast & Fixture
- UL Approved For Wet Locations (IP 65)
- Instant Start And Restart
- Fixtures Are Rust Resistant
- Min. Starting Temp. -22° F
- Max. Heat Tolerance 190° F

Ideal for dairy freestall barns and parlors, shops, supply rooms and offices.

Lighting Operating Cost Comparison Wattage Comparison

(8 FOOT ELECTRONIC LIGHTING)	(SINGLE FIXTURE - METAL HALIDE)
4 BULBS 54 WATTS + 9 WATTS for Ballast = 225 WATTS TOTAL	1 LIGHT 400 WATTS + 58 WATTS for Ballast = 458 WATTS TOTAL
X 30 DAYS = 6,750 WATTS	X 30 DAYS = 13,740 WATTS
X 24 HOURS = 162,000 WATTS	X 24 HOURS = 329,760 WATTS
÷ 1000 WATTS = 162	÷ 1000 WATTS = 329.76
X \$.08 = \$12.96 per month	X \$.08 = \$26.38 per month

Less than 1/2 the operating cost

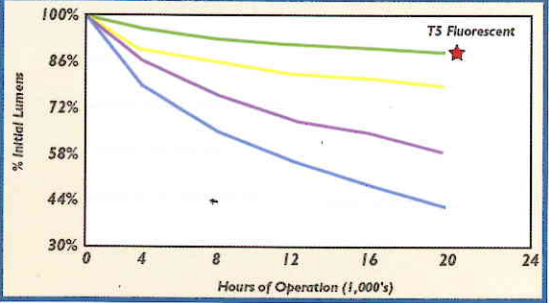

Contact your local electric company for information on available rebate programs in your area.

Lumen Comparison

(8 FOOT ELECTRONIC LIGHTING)	(SINGLE FIXTURE - METAL HALIDE)
54 WATT BULB = 5400 LUMENS	400 WATT BULB = 25,000 LUMENS
X 4 BULBS = 21,600 LUMENS	X 1 BULB = 25,000 LUMENS

The Metal Halide has approximately 10% more lumens initially, however after 8-10 months the filament breaks down and fluorescent surpasses the metal halide in lumen output.

Lumen Maintenance Comparison

- Probe-Start MH (Metal Halide)
- Pulse-Start MH (Metal Halide)
- HPS (High Pressure Sodium)
- T5 Fluorescent

Electronic Fluorescent Fixtures

- 232T8-4 4ft. Fixture with 2-32 Watt T-8 Bulbs
- 254T5-4 4ft. Fixture with 2-54 Watt T-5 Bulbs
- 454T5-8 8ft. Fixture with 4-43 Watt T-5 Bulbs
- 654T5-8 8ft. Fixture with 6-54 Watt T-5 Bulbs

Silage Bunker Covers

- White plastic reflects heat & light,
- High opacity - special UV formulation,
- Resistant to tears,
- 40', 60' widths,
- Folded one-piece cover reduces labor cost and roll damage.

Silage Bags

- White/black or all white available.
- Warranted against defects.
- 8', 9', 10' diameter bags in stock.
- The only silage bag manufactured by a company that makes both the resin and the film.
